ELAC + Adsum ConneX Speakers

Simplicity and Versatility!

The collaboration between ELAC and ADSUM represents a fusion of cutting-edge audio technology and urban streetwear flair. By joining forces, ELAC, renowned for its premium audio equipment, and ADSUM, a trendsetting lifestyle brand, aim to redefine the boundaries of style and sound.

ELAC Adsum ConneX

Simply Connected

Elac's DCB41-DS with its versatile inputs are designed to connect to a variety of sources without additional equipment, resulting in Premium Audio Simplified.

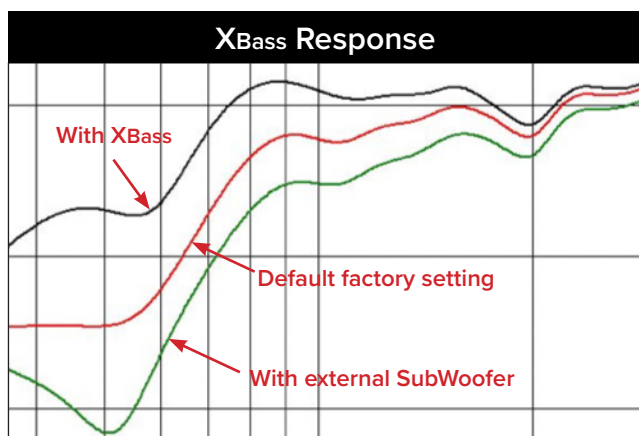

ConneX SERIES FEATURES

Great things come in small packages.

With a powerful built-in amplifier, the Debut ConneX delivers outstanding sound in a small footprint. Offering an unprecedented number of connection options—USB Audio, HDMI eARC, Bluetooth AptX, Phono Preamp, Analog, and Optical Inputs—the Debut ConneX makes it easy to add high-fidelity audio just about anywhere you need it.

Remote Control	Infra-Red
Cabinet	12mm reinforced MDF
Grilles	Removeable

ConneX Series Speakers

Rear Firing Ports

For better lower frequency extension and to minimize ventilation noise, the bass reflex port on the DCB41 is directed to the rear, in an “S” configuration.

Woofers

Long excursion woofer for increasing output and added bass extension.

Waveguide

Custom waveguide improves dispersion and directivity.

XBass

XBass is a proprietary circuit boosting low frequency performance.
