3D SOUND
SYSTEM

The original RD 100 became a defining product of its era - recognized for its distinctive shape, flip-clock display, and intuitive controls.

Today, ELAC carries this design legacy forward with modern technology, refined usability, and sound engineered for contemporary living.

FLIP-CLOCK DISPLAY WITH AMBIENT SENSOR

Inspired by the original RD 100, the large flip-clock display combines nostalgic character with modern functionality.

An integrated ambient light sensor automatically adjusts brightness for perfect readability day and night.

ROOM-FILLING 3D SOUND

Precisely tuned by ELAC, the RD 100 delivers expansive sound from a compact enclosure.

A dedicated 2.5" full-range driver and dual 1.5" side drivers create a wide, natural soundstage with clear vocals and rich bass.

BLUETOOTH® STREAMING

Stream music, podcasts, and more directly from your smartphone, tablet, or laptop via Bluetooth® 5.0.

The RD 100 automatically reconnects to the last paired device for seamless everyday listening.

Simple, seamless, and always ready to play

WAKE UP & WIND DOWN

Two independent alarms with selectable audio sources let you personalize every morning.

Choose between buzzer, DAB+, or FM radio, while the oversized SNOOZE button gives you a few extra moments before the day begins. The integrated sleep timer gently powers the RD 100 down while music continues to play.

TECHNICAL DATA

Reception	DAB+, FM (RDS), Bluetooth®
Presets	3 presets each for DAB+ and FM
Bluetooth®	5.0 / A2DP
Display	Digital flip-clock style, dimmable, with ambient light sensor
